

ROOMFLOW

RoomFlow Pilot Overview

One-page overview for hotels and short-term rental operators.

Status: Pilot Version - 2026

What is RoomFlow?

RoomFlow is a digital guest appreciation platform that gives each room a QR code guests can scan to leave a secure digital tip. No app download. No login. No complicated setup.

What the Pilot Includes

- Property setup and onboarding support.
- Room-specific QR codes and guest tipping links.
- Printable 4x6 room cards and poster assets.
- Management portal access.
- Exportable tip reports.
- Support during launch and review.

What the Property Provides

- Approval for pilot rooms or launch area.
- A management contact for setup coordination.
- Placement of QR materials in approved locations.
- Use of the exported report with the existing tip distribution process.
- Feedback after the pilot period.

Recommended Pilot Timeline

Week 1: setup and asset generation. Week 2: QR placement and staff communication. Weeks 3-6: guest activity collection and reporting review. Final step: pilot results discussion and expansion decision.

Success Metrics

- Guest scans and completed tips.

- Staff feedback.
- Ease of QR placement.
- Clarity of reporting exports.
- Operational simplicity for managers.
